

本题共评出 5 份特等奖 (Outstanding Winners) 获得者:

1、美国哈佛大学—*MAA Prize Recipient*

- 参赛编号:

Control No.291

- 论文题目:

A Myopic Aggregate-Decision Model for Reservation Systems in Amusement Parks

- 论文作者:

Ivan Corwin、Sheel Ganatra、Nikita Rozenblyum

- 指导老师:

Clifford Taubes

[2004 B O A Myopic Aggregate-Decision Model for Reservation Systems in Amusement Parks.pdf](#) (809.89 KB)

2、美国科罗拉多大学—*SIAM Prize Recipient*

- 参赛编号:

Control No.381

- 论文题目:

Developing Improved Algorithms for QuickPass Systems

- 论文作者:

Moorea L. Brega、Alejandro L. Cantarero、Corry L. Lee

- 指导老师:

Bengt Fornberg

[2004 B O Developing Improved Algorithms for QuickPass Systems.pdf](#) (700.79 KB)

[2004 B O Developing Improved Algorithms for QuickPass Systems.pdf .pdf](#) (1.74 MB)

3、美国华盛顿大学

- 参赛编号:

Control No. 21

- 论文题目: **Kalman Queue: An Adaptive Approach to Virtual Queuing**
- 论文作者:

Sasha Aravkin, Tracy Lovejoy, and Casey Schneider-Mizell

- 指导老师:

James Morrow

[2004 B O KalmanQueue An Adaptive Approach to Virtual Queueing.pdf](#) (630.92 KB)

4、英国牛津大学—INFORMS *Prize Recipient*

- 参赛编号:

Control No.602

- 论文题目: **Theme-Park Queueing Systems**
- 论文作者: *Alexander V. Frokin, Frederick D.W. van der Wyck, Stephen Burgess*
- 指导老师:

Ulrike Tillmann

[2004 B O Theme-Park Queueing Systems.pdf](#) (706.07 KB)

5、麻省理工学院—Ben Fusaro Award（摘要）

- 参赛编号:

Control No.482

- 论文题目: **Theme Park Simulation with a Nash-Equilibrium-Based Visitor Behavior Model**
- 论文作者: *Andrew Spann, Daniel Gulotta, Daniel Kane*
- 指导老师:

Lawrence Evans

[2004 B O Z Theme Park Simulation with a Nash-Equilibrium-Based Visitor Behavior Model.pdf](#) (55.81 KB)

一等奖

[2004 B M Virtual Lines in Topoland with these Designs.pdf](#) (1.14 MB)

二等奖

[2004 B H Magic Regulation Scheme for QuickPass System.pdf](#) (95.03 KB)

[2004 B H a Faster QuickPass System.pdf](#) (2.13 MB)

成功参赛奖

[2004 B P Make Your Way Faster.pdf](#) (120.96 KB)

[2004 B P Optimized QuickPass System.pdf](#) (909.16 KB)

[2004 B P You Must Be at Least This Tall to Ride This Paper.pdf](#) (998.83 KB)
